

CHICAGO RUBBER WASHER

Description:

For use with 2 lug Air King® Couplings and Minsup A Type Claw couplings. This Dixon Air King AWR4 rubber washer is intended for use with sizes 3/8" to 1" two-lug Dixon Air King couplers and hose ends (not included) and prevents pressure leaks while the air or water line is pressurized. The black natural rubber washer has a maximum air pressure of 150 psi at 70 degrees F. This rubber washer is suitable for use with Dixon Air King couplers and hose ends in air and water use in applications such as construction and mining.
