

IXF32-1 INTERNAL EXPANSION FERRULE

Description:

Internally expanded couplings are essential when maximum flow of media is important. Reduces turbulence through hose. Excellent sealing and retention characteristics. Outperforms band clamps. Easy and consistent installation. Recommended for concrete placement, grout and plaster, food, dairy, pharmaceutical as well as other applications where increased flow capacity is important.

Safety Notes:

- Dixon Holedall stems and ferrules are specifically designed to be used together as a coupling system. Due to differences in dimensions and tolerances, for safety reasons, do not use other manufacturer's stems or ferrules with Dixon Holedall products.
- Do not use a wrench or vice on ferrule
- Holedall couplings, regardless of coupling style, are never to be used for steam service at any pressure.
- Holedall fittings are not to be used with cable reinforced high-pressure hose, 4 or 6 braid wire hydraulic hose or any other service not listed in the recommendations.

Ferrule ID:	2-11/16"
Weight:	.99 lb
Material:	Plated Carbon Steel
Hose ID:	2"
Hose OD To::	2-44/64" (68.3 mm)
Hose OD From:	2-40/64" (66.7 mm)
