

NEOCORK

Description:

This rubberized cork tape with adhesive is a durable and long-lasting material for gaskets, washers, insoles, pads, insulation, and applications that require medium pressure seals. Cork and rubber is known to stand up to vibration, shock, and intense pressure while resisting heat, gas, oil, and water. This makes it excellent material for industrial applications. Compressibility of 400 psi (35-50%). Hardness 65 durometer. Tensile strength 260 psi.

Part No.	Thickness	Width	Length	Sold by
G-4.2.025	1/8"	1"	20 ft	Priced per ft/ Sold by roll
G-4.2.025-1	1/8"	1"	35 ft	Priced per ft/ Sold by roll
G-4.2.026	1/8"	1-1/2'	20 ft	Priced per ft/ Sold by roll
G-4.2.027	1/8"	1-1/2"	25 ft	Priced per ft/ Sold by roll
G-4.2.028	1/8"	2"	25 ft	Priced per ft/ Sold by roll
G-4.2.089	1/8"	3"	25 ft	Priced per ft/ Sold by roll
