

3/8" QUICK CONNECT PLUG

Description:

Automotive interchange coupling. J-Series pneumatic male threaded plug.

*It is important to be safe when installing quick disconnect couplings into a pneumatic circuit. Never install a pneumatic coupling directly into an air tool, use a piece of hose that is at least 18" long, between the tool and the coupling, to prevent damage to the coupling. To protect the operator, safety devices, such as a safety check valve and safety cable should be installed in case there is a hose or coupling failure.

Weight:	.08 lb
Material:	Steel
Female Thread:	NPTF
Body Size:	3/8"
Female Thread Size:	1/4"
Length:	1.78"(45.2mm)
Temperature Range:	-40°F to 250°F (-40°C to 121°C)
