

2" KING COMBINATION NIPPLE PLATED

Description:

2" King Combination Nipple, recommended for low-pressure discharge and suction service for compatible liquids. NPT threaded end with knurled wrench grip.

Safety Notes:

- King Combination Nipples are not recommended for steam.
- The working pressure may vary with the construction of the hose, the type of clamping system used and the application. Consult Dixon for recommendations.
- In accordance with the R.M.A. bulletin for oil suction and discharge hose, a coupled length of hose in any size, should be tested to 1-1/2 times the working pressure and held for fifteen minutes without leaking or coupling movement.
- Not for compressible products such as air or nitrogen
