

EverClear[™]

Self-Cleaning Parts Washing System

**The most efficient and economical way to
cleaning your tools and parts.**

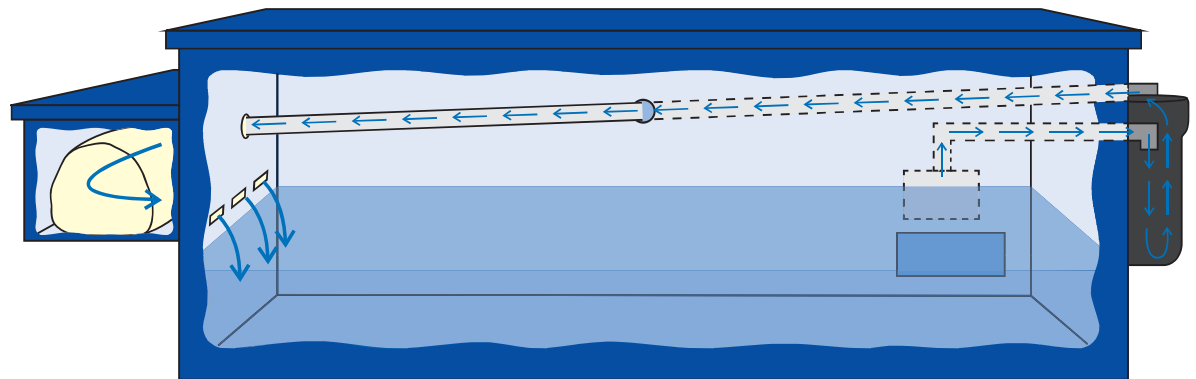

Equipment

The EverClear™ Parts Washer System is an innovative and cost effective solution to your parts washing needs. Its self-cleaning technology reduces monthly preventive maintenance costs and downtime required to service the system. Cleaning fluid only requires “topping off” as natural evaporation occurs reducing costs and inventory concerns.

Features

- Spring-loaded, safety lid with fusible link
- Flow-through parts washing brush
- Solid, 14-gauge steel construction
- Durable, high corrosion-resistant enamel paint
- CSA approved.

The unique two-way filtration provides clean solvent every day, without replacing cleaning fluid. Easy-to dispose filters can be safely discarded with your oily rags.

EverClear™ Chemicals

Current Issue®

- Organic, biodegradable, RTU citrus solvent degreaser
- High dielectric strength of over 29,500 volts
- Leaves no residue, evaporates completely
- Safe handling, non-corrosive, non-caustic

EverSolv™ 143

- High flashpoint petroleum distillate for a safe operation
- High dielectric strength of over 36,000 volts
- Non-corrosive, non-caustic
- Leaves no residue, evaporates completely

New Era™

- Soy solvent degreaser
- High flashpoint for increased safety - greater than 300°F
- Safe handling, non-corrosive, non-acid formulation
- No-rinse formula will not emulsify

Workload Compounds
C1

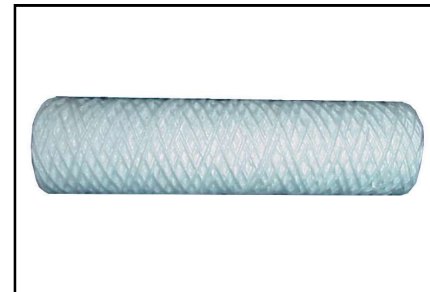

EverClear™ Filters

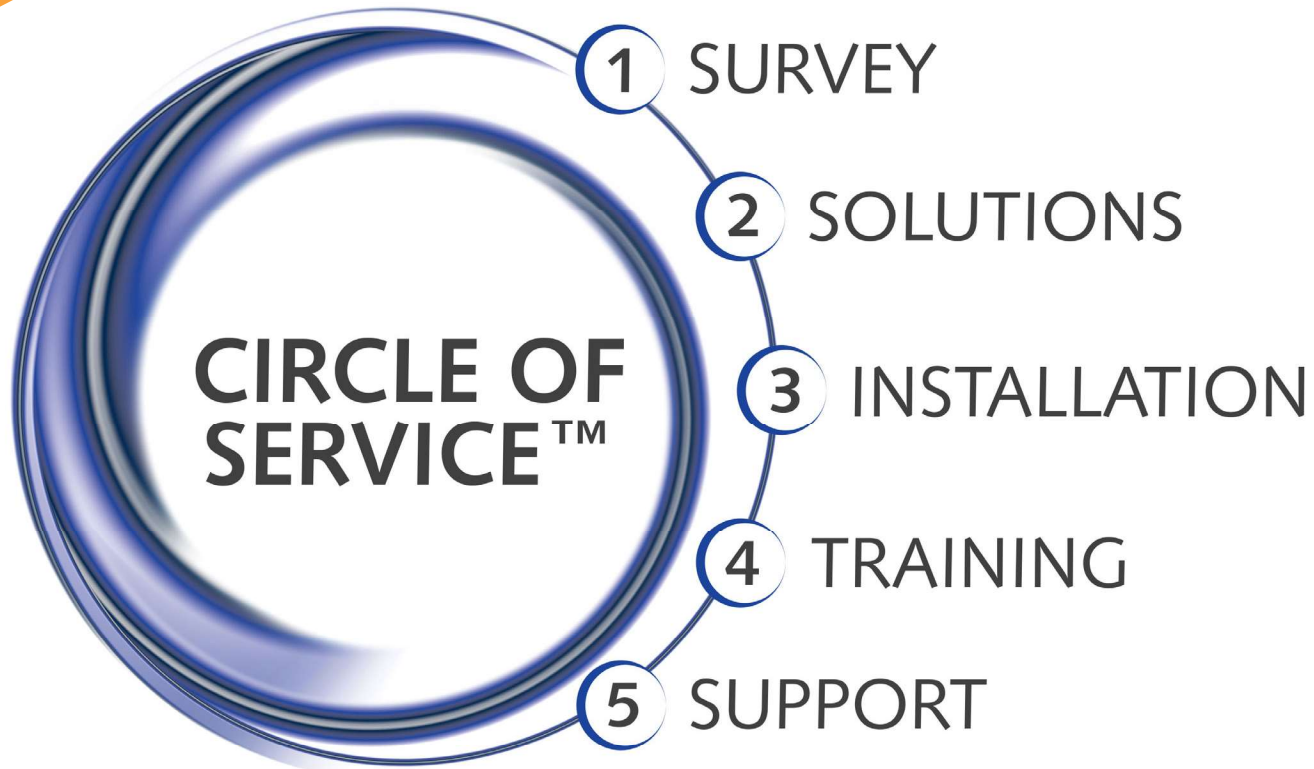

EverClear™ Bag Filter

- Removes oil and grease contaminants from the solvent
- Can be used nightly to thoroughly cleanse the solvent for longer usage

EverClear™ Wound Filter

- Provides ultra clean solvent filtration to 25 microns
- Final barrier to both solid and oil contamination
