

CALCIUM CHLORIDE FLAKES

DESCRIPTION:

Calcium Chloride Flakes are white, free-flowing flakes with a minimum of 83% active ingredient (calcium chloride), which is 10% higher than conventional 77-80% calcium chloride flake. Use as concrete accelerator, dust suppressant, and snow and ice melter. Ice melt work at -32 Celsius. Fast acting. Flakes will track less than pellets. This product meets or exceeds ASTM D98 and AASHTO M144 purity requirements for Type S, Grade 3, Class B calcium chloride.

Size:	50 lb bag
Colour:	White
Odour:	Odourless
Shelf life:	Protected from moisture 36 months
