

RAPID TAP, CUTTING FLUID

DESCRIPTION:

Rapid Tap is designed to optimize tool life, machine speed, and surface finish in a broad range of machining operations. This non-toxic tapping fluid is effective on tough materials such as aluminum, beryllium, brass, bronze, cast iron, copper, Inconel, stainless steel, molybdenum, and Stellite. It is environmentally friendly, non-flammable and ozone friendly.

Container Type:	Bottle
Size:	16oz
Form:	Liquid
