

SAFETY VENTED BALL VALVE

Description:

Safety Vented Ball Valves safely manage pressure in systems with volatile, hazardous, or expanding fluids. They ensure pressure release when needed for maintenance or when fluids like liquid nitrogen or liquid oxygen are used, preventing dangerous buildup and ensuring worker and equipment safety. For air service only

Features:

- Blow-out proof stem design
- Adjustable packing gland

Material:	Bronze valve, chrome plated ball
Size:	3/4"
Thread:	Female NPT x Female NPT
Seat:	RTFE
Port:	Standard
Pressure Rating:	0-125 psi
