

Regulator Nose Skid Plate "The Beast"

Technical Data:

Weight: 82.8 lbs.
Dim.: 7" x 41" x 1-1/8"

- 1/2" thick carbide overlay for entire length of 1/2" steel plate skid
- Additional complex carbide overlay at Bends
- 4 replaceable 1/2" diameter mounting plow bolts in protected countersunk recesses
- Supplied with nuts and lock washers

Description: Regulator Nose Skids for Ballast Regulator machines. The 6" wide skid plate is designed for use with Kershaw machines; the 7" wide skid plate for use with Knox-Kershaw machines. Carbide overlay is applied along the entire length of the skid and on the bolt heads, with additional complex carbide reinforcement at bends for increased longevity. Nose skids supplied with 4, 1/2" diameter plow bolts held in place in countersunk bores with appropriate nuts and lock washers.
