

FLAP WHEELS

DESCRIPTION:

These flap wheels are made of the highest industrial quality abrasive cloth and have an optimal number of flaps securely bonded and balanced around the hub for highest quality finishing. They are ideal for general purpose blending, shaping and deburring and will provide a consistent and uniform grained satin finish. No matter the application, COOLCUT™ flap wheels will generate excellent results.

- ✓ Flanges for use on bench grinders included
- ✓ Highest industrial quality abrasive cloth
- ✓ Optimal number of flaps

Part No:	Diameter:	Width:	Shaft:	Grit:	Max RPM:
