

RONCO EARTH EXAM GLOVES - VIOLET

DESCRIPTION

Any product that results in less plastic and other non-biodegradable materials ending up in a landfill is beneficial to the environment. These premium biodegradable gloves break down in a fraction of the time it takes for regular disposable nitrile gloves. They are also 100% latex-free and powder-free to reduce the risk of skin irritations and allergies.. They are great for various applications including food handling and processing, pharmaceutical, and medical applications.
